

Raghav

👤 Profile

- ★ Driven B.Tech Computer Science student enthusiast on a mission to seamlessly connect theory with real-world impact. Thrilled to embark on challenging projects, pioneering innovation with state-of-the-art technology. On the lookout for immersive hands-on opportunities, hungry to collaborate with industry leaders, and unwaveringly committed to making game-changing contributions that catapult team success to unprecedented heights.

★ Projects

- **University Management System**
Created a University Management System with Java Swing frontend, JDBC for database connectivity, and MySQL for storage. Designed intuitive interfaces for student enrollment, course management, and grade tracking, enhancing administrative efficiency.
- **Quiz Application**
Developed an interactive Quiz Application utilizing Java Swing and AWT for the frontend. Implemented engaging user interfaces for quiz questions, options, and score tracking. Utilized event handling to capture user responses and provide instant feedback.
- **Online Job Portal (JobCrafters)**
An online Job Portal named JobCrafters, employing JSP, JavaScript, JDBC, MySQL, HTML, and CSS. Engineered robust backend functionality with JDBC for database connectivity to MySQL, ensuring seamless user data management.

🎓 Education

- **B.Tech (Computer Science), The Technological Institute of Textile & Sciences**
November 2021 – Present
- **Class XII, Adarsh Vidya Mandir, Bhiwani**
April 2021
Scored 79.2%
- **Class X, Bhiwani Public School, Bhiwani**
April 2019
Scored 78.2%

★ Certification

- **Java and Advance Java, DUCAT, Pitampura**
June 2023 – August 202
